Northshore Dive Team

July 7, 2026

Attn: Redbud Health Care District

The members of the Northshore Fire Dive Team is a Public Safety Dive Team respectfully request your consideration of a donation to support the replacement and modernization of our underwater diving Equipment.

Our Dive Team provides specialized underwater search, rescue and recovery services throughout our community and serves as a regional resource during emergencies. Whether responding to missing person incidents, vehicle submersions, evidence recovery or water-related emergencies, our divers operate in hazardous environments where dependable equipment is essential to mission success and personnel safety.

Much of our scuba equipment has been in service for many years and is approaching the end of it's recommended service life. Advances in diving technology have significantly improved safety, reliability and operational effectiveness. Replacing aging equipment with modern life support systems will help ensure our divers are equipped to perform these demanding missions safely while meeting current industry standards.

Donations received through this campaign will be used to purchase and replace critical equipment including:

- Scuba cylinders and regulators
- Buoyancy compensator devices (BCD's)
- Full-face masks with underwater communication systems
- Underwater lighting and specialized tools
- Other essential equipment necessary for public safety diving operations

Your investment in our dive team is an investment in the safety and well-being of our community. Every contribution directly supports our ability to respond effectively to water emergencies while providing our divers with the equipment needed to perform their duties safely and professionally.

Thank you for considering our request and for your continued support of the Northshore Dive Team. Through partnerships with community members and local businesses, we can continue providing the highest level of public safety when our community needs us the most.

Respectfully:

John Rodriguez, Captain Public Safety Division
Northshore Fire Public Safety Dive Team
Office: 707-274-3100, Cell: 707-349-3367
